## Interest rates on bank deposits – France • December 2020

### The average interest rate on bank deposits is stable in December

In December 2020, the average interest rate on bank deposits was 0.46%. This rate decreased by 12 basis points between December 2019 (0.58%) and August 2020 (0.46%) and has remained unchanged since then. This year-on-year decline is mainly attributable to the change in the Livret A passbook savings account rate in February 2020 (0.75% to 0.5%) as well as lower interest paid on deposits with agreed maturity (for both households and NFCs).
